## ACT Program Level III - On-site schedule

### 1<sup>st</sup> Day:

- Morning – Meet and greet, review and sign the ACT Program agreement forms, go over the other forms, and any other administrative or practical issues.
- Afternoon – Inspect the classroom and the ACT site building, meet the actors and facilitators hopefully at the building site for initial overview of responsibilities and expectations.

### 2<sup>nd</sup> Day:

- Review & train the actors and facilitators, review the equipment, weapons/ammo to be used

---

After this, the training schedule can be extremely flexible to accommodate the needs of your department, within the following boundaries:

- Officers must receive the 4-hour block of classroom instruction before receiving the live-exercise portion of the ACT training. The live-exercise training does not have to be given that same day.
- Any number of officers at one time (that can fit in the provided classroom) can receive the 4-hour block of instruction. We can hold up to two 4-hour blocks of classroom instruction per day (one of these blocks can be held in the evening, if it helps your employee scheduling).
- The live-exercise portion of the training must start no earlier than official time of sunset.
- We can live-exercise train a minimum of 10 officers (~4 hours) up to and including a maximum of 20 officers (~8 hours) on a given day.
- You can freely mix and match classroom instruction with live-exercise training on any day as it best fits your needs and ability to schedule your officers appropriately, so long as the classroom instruction for a given officer comes first.

Please review the other PDF documents at the ACT Program website for more information. You can also contact the ACT Program consultant by emailing [actprogram@radssoftware.org](mailto:actprogram@radssoftware.org).
